## Brief Information about Prof. Achyuta Samanta

Prof. Achyuta Samanta [www.achyutasamanta.com](http://www.achyutasamanta.com) was born to Late Neelima Rani Samanta and Late Shri Anadi Charan Samanta. But, unlike most children blessed with endless care, comfort and compassionate nurture in the lap of their parents, Achyuta Samanta's childhood was the most difficult, grief-stricken and struggle-full. **He was four when his father died in a tragic train accident.** He failed to understand when his family was bereaved of the only bread earner. At such a tender age, because of the stroke of misfortune, he began to understand the pains of poverty that the family had to face. His father, a petty worker, exhausted the limited money he earned and took a huge amount of hand loan to support his seven children and wife. **The family bequeathed debts and poverty after father's untimely death.**

**In such dark circumstances, all the seven siblings started struggling to survive along with their widowed mother in Kalarabanka, a remote village in Odisha without anything in anybody's hand or any backing. At four, Achyuta Samanta started struggling for his survival.** As he grew up to understand the difficulties, he assisted his mother in household chores and other menial jobs to augment income for the family. His upbringing in the midst of nature and hardships took place in a remote village with no amenities, not even basic, before forty-five years. He grew up in a thatched house just like a cowshed left by his deceased father.

**His mother had to face unending struggles.** Because of her commitment and determination, she did odd menial jobs to manage two square meals a day for her children. Sometimes, they did not have food for the night. The siblings managed to study and get a formal education besides helping their mother to supplement the family income with honesty and determination. Achyuta Samanta completed his Intermediate with distinction despite financial distress. **He obtained graduation and Post Graduation Degree in Chemistry and was engaged in private tuitions and mentoring for funding his education and helping his siblings.**

The same person whose childhood just unfolded miseries, created Kalinga Institute of Industrial Technology (KIIT) [www.kiit.ac.in](http://www.kiit.ac.in) and Kalinga Institute of Social Sciences (KISS) [www.kiss.ac.in](http://www.kiss.ac.in) in 1992-1993 with 100 USD (Rs.5000/-). While KIIT has become one of the most acclaimed and recognized Indian Universities that provides Professional Education to 27,000 students from India and abroad, KISS has become world's largest tribal educational institution. It is a home to 27,000 poorest of the poor tribal children who are given free education from Kindergarten to Post graduation along with other avenues of Comprehensive Development. KISS has huge alumni of 10,000 students with a decent profession and livelihood besides creating a wave of change in their communities. **KISS is the first exclusive Tribal University in the world.**

**The whole world, policy makers, educationists, economists talk about 'poverty alleviation through Education' as a solution to address the global problems that exist today. This cardinal principle has been the very foundation of KIIT and KISS. It was envisioned, implemented, executed and achieved by Achyuta Samanta in true sense for the last 25 years.**

He initiated KIIT and KISS when there was not adequate awareness about professional Education in Odisha. Tribal Education in an innovative model was not even thought of. It was a gray area where every stakeholder failed or did not muster up the courage to initiate the first step. Achyuta Samanta founded these two institutions during that period despite such a dismal scenario. **His initiatives have become a pride of Odisha, India and the world today.**

He strongly believes that his cause is not only about providing opportunities and arranging certain facilities for the deprived but beyond it, by enabling the complete transformation of children. The students have excelled in academics and co-curricular activities.

His contribution is not only confined to Academics and Education. It permeates to Rural Development, Women Empowerment, Social Service, Low-Cost Health Care Facilities, Art, Literature, Media, Culture, Entertainment and Spiritualism. **Despite his spectacular success and achievements, he leads a simple and dedicated life in a two room rented house as a bachelor dedicating himself to the service of humanity with patience and passion as his strength and humility, simplicity, modesty and transparency as his assets.**
